

CAMP CHICKAWAH

HARRISON · MAINE

New York, September 15th, 1952

Dear Mr. & Mrs. Immerman:

It is wonderful to be able to report that this was the best summer in our history for joy, health, weather, and all around general satisfaction.

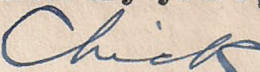

Harry kept well all summer. That insect bite worried us momentarily, but when you told us that he was allergic to bites we had the answer. His weight was 81 at the final weighing which was $\frac{1}{2}$ pound more than the first weighing.

Harry excelled in Swimming and in Golf. He passed the 2nd Boat and 1st Canoe tests and qualified as an Intermediate Swimmer according to Red Cross standards. In Golf he passed tests in grips, vocabulary, use of clubs, stance, and swing.

But more than all this, Harry is a fine enthusiastic camper. As I have told you before he is a natural. He makes friends easily and gets along well with everyone. We hope he will spend all his camping days with us.. (not Kohut). I almost forgot to tell you that he is a Champion Aquaplaner. He went 4 times - the maximum.

Hoping you all keep well and have a wonderful year, I am

Sincerely yours,

Joseph C. Saltman

P. S. The 1953 enrollment blank is enclosed and I hope you can send it in immediately. We have an unusual number of new applicants and we must know how many to accept.

If you have one or two names and addresses to recommend in the 6 to 9 age group we would appreciate it.
